CHOSE MANNER OF DEATH

Preferred Electrocution to a More Horrible Fate.

CHICAGO, Sept. 2.-Nels Anderson, a motor inspector for the Illinois Steel company, chose death by electrocution in preference to a more horrible fate in one of the company's seething metal pits today at the South Chicago works. Anderson was doing repair work on the arm of a crane directly above one of the hot metal pits. A slight move-ment of the arm caused him to lose his balance. The only support within reach was an uninsulated live* wire which

connected the crane with power.

Anderson gave one glance at the white hot metal below and caught the wire as he was falling. He was almost Instantly killed and the body hung over the wire until the current could be shut off. Death is thought to have been instantaneous.

Dock Laborers on Strike.

MONTREAL, Sept. 2.—Two hundred ock laborers went on strike yesterday or an increase in wages of 75 cents a day. The strikers were brought here two years ago to take places of members of the Longshoremen's union, who went on a strike at that time, demanding a similar increase.

That's the personal question a woman asks herself when she reads of the cures of womanly discuses by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her? Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always belps. It almost always cures. it a complicated case? Thousands helps. It almost always cures.

"I commenced taking your medicine. Favorite Prescription, nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good, writes Mrs. L. C. Wagner, of 125 Edwin Street, Toronico Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I bud I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Would advise all suffering women to use Dr. Would advise all suffering women to use Dr. Pierce's medicine."

These are the Original Little Commence of the Ways again. Their influence losts.

FIREMEN COME TO **BLOWS IN STATION**

Capt. Stab and Three Men of Department Use Their Fists.

STORIES OF TROUBLE VARY AS TO BLAME

Chief Bywater Is Making an Investigation of the Whole Case.

As a sequel to the personal encounter Friday night in the headquarters of the fire department, in which Capt, John Stab, on one side, and Firemen Charles and Fred Gulbransen and Andrew Eikrum, on the other side, became involved, charges and counter-charges were yesterday filed with Assistant Chief Workman Chief Bywater, who arrived yesterday aftermoon from the International Fire Chiefs convention in Duluth, Minn., and the National Fire Chiefs convention in Kansas City, Mo, will investigate the af-fair and later will give a full hearing.

How Trouble Started.

The encounter arose in a somewhat peculiar and unusual manner. It occurred at 6 o'clock Friday evening. At that hour Charles Gulbransen, who is a cripple, having sustained an accident in line of duty which necessitated the amputation of one of his legs, was using wire No. 19 on the switchboard in conversing with his wife. While Gulbransen was talking a call ran in on wire No. 500.

Captain Got Angry.

Captain Got Angry.

Capt. Stab, who was acting house captain at the time, arose to respond to the call. As there is but one plug on the switchboard, it was necessary for Capt. Stab to call upon Guibransen to let him have the right of way. As Guibransen was nearing the close of his conversation with his wife, he asked Capt. Stab to wait a moment in answering the call on No. 900 wire. There are various stories as to the manner that Stab called upon Guibransen to permit aim to respond to the incoming call. Capt. Stab pulled the plug from No. 19 wire and inserted it into No. 900 wire. Hot words resulted and blows were struck. There is a question as to who struck the first blow. Fireman Elkrum, who declares that Stab struck Guibransen first, interfered as peacemaker and separated the men. Fred Guibransen, brother of the cripple, hearing of the affair, rushed into the office and waded into Capt. Stab. Charges Are Filed.

Charges Are Filed.

Charles Gubransen yesterday filed charges against Capt. Stab of assault and conduct unbecoming a gentleman. Capt. Stab likewise filed similar charges against Charles and Fred Guibransen and Andrew Eikrum. His charges against the men were embodied in a report of the trouble, which he submitted to Assistant Chief Workman. When seen by a representative of The Tribune on Saturday, Chief Bywater stated that he knew practically nothing of the trouble and consequently was not in a position to discuss it.

Captain's Explanation.

Capt. Stab explained yesterday that he had been left in charge of the house and related the fact that Charles Guibransen was using wire No. 19 on the switchboard. As it was his duty to respond to incoming calls, he further explained that as soon as wire No. 900 rang he jumped to his feet to respond, it perhaps being a call for the apparatus. apparatus.

Alleges Assault.

He said: "I asked Gulbransen in a gen He said: "I asked Gulbransen in a gentlemanly manner to permit me to use the plug to answer the call on No. 200. He said, 'Wait a minute,' in an insulting manner. I waited about two minutes, and thinking the call might be for a fre, I pulled the plug out of No. 19, which Gulbransen was using. As I did so, Gulbransen struck me on the right side of my head, and I defended myself. "Gulbransen then yelped: 'You'd hit a cripple, would you?' Elkrum, who was in the office, jumped up and hit me several times, but the blows did not amount to anything. Fred Gulbransen then came

In the office, jumped up and hit me several times, but the blows did not amount to anything. Fred Gulbranson then came in and jumped on me. He tried to throw me, but did not do it. I did my duty, and will do it first, last and all the time."

Charles Gulbransen, the cripple, related his story as follows:

Crippled Fireman's Story.

"I was using the wire to talk with my wife about some bills for which I gave her money to pay A call came in on wire No. 200 Stab jumped up to answer it and I requested him to wait a moment, telling him I was nearly finished. I would have been finished in ten seconds. Stab however, said, "I'll show you whether I'll wait or not, and with that pulled the plug from wire No. Is, which I was using, I grabbed at the plug coll and Stab struck me a blow on the nose, making it bleed. I, of course, swung back and hit him.

Charges Former Trouble.

"Andrew Eikrum, who was in the office at the time, came between us and said to Stab that he would not see him hit a cripple. Stab had done things like this before, but he would not dare treat a man physically his equal as he did me at the

physically his equal as he up me at the telephone.

"My brother Fred came into the office and asked Stab if he had struck me Stab denied having struck me, but as my nose was bleeding my brother knew better, and hit Stab several times."

Fred Gulbransen admitted having taken the part of his brother, and said: "I heard the falking and rushed into the office. Stab had my brother backed up against the wall, with his fist ready to strike him again. I jumped in and struck Stab, who denied having struck my brother. He tried to choke me, but I threw him off and we exchanged several blows. Stab went after me in the same way once, just after I was recovering from a broken arm."

Captain Is Blamed.

Captain Is Blamed.

Andrew Eikrum positively declared that Stab struck Charles Gulbransen first, and corroborated the latter's story of the trouble. Eikrum further stated that he separated the men, but dealed having hit Stab. Eikrum stated that he would not see Stab hit a cripple, and that he welcomed an investigation of the entire

FINDS ROTTEN CONDITION

Receiver of Denver Savings Bank Makes a Report.

DENVER, Colo., Sept. 2.-Receiver Steick of the suspended Denver Savings bank has reported to the District court oday on the condition of the bank. He believes that the assets of the bank will pay 75 per cent of depositors' claims and asks authority to declare a dividend of 19 per cent at once. The report reads in

per cent at once. The report part:

"I am convinced that during the past few months the affairs of the bank have been conducted in gross and wilful violation of the banking laws of this State Loans have been made to persons associated with and to companies officered by the same persons who made the loans as officers of the Denver Savings bank, and such loans were made either without any collateral or upon collateral which was only a filmsy pretext.

"On the books of the bank appear entries of loans to banks and commercial houses in Indian Territory and Texas."

CONSULTING BOARD

Canal Engineers Discuss Details of Organization and Construction.

WASHINGTON, Sept. 2.-The board of consulting engineers of the Panama canal today discussed various details of organization. The special committee on procedure, appointed yesterday, made a partial report. While no formal action has yet been taken, it has been practically determined that the board will accept the invitation of Chairman Shonts to visit the isthmus the last of the month, when the commission meets at Panams.

The board adjourned at half-past 12. They will meet again at the call of the chairman, which will probably be next Friday.

Study the Plans. In the meantime the members will study the various documents and plans which had been prepared beforehand, and to facilitate that work they will have at their disposal several rooms in the Mills building, which will be fitted up as their offices. offices.

In the meeting this morning, Mr. Hurter, the English delegate, was appointed on the executive committee, in the place of Mr. Burr, who is likely to be absent at times.

Discuss Size of Locks.

It was further decided that on Friday a discussion would be held about the size of the locks, which is a very important question, now that larger ships are being built every year. When this has been decided it will be possible to figure out the cost of a lock canal and to compare this with a sea-level canal.

ordinances and not of any Federal

ST. LOUIS, Sept. 2.-A heavy rain and electric storm here today caused much damage. Lightning smashed the front wall of the home of Frederick Brockschmitt, stunning the parents and two children. Four new flat buildings were demolished, a number of homes were unroofed and much other damage

PURE BLOOD INSURES A CLEAR SKIN

When Eczema, Acne, Tetter, Pimples, or other skin diseases make their appearance it is a sure sign that the blood is filled with humors and burning acids. These being forced through the pores and glands burn and blister the skin, producing the eruptions which are usually accompanied with intense itching, and are disfiguring and humiliating.

Years ago my blood was bad, as evidenced by skin eruptions on different parts of the body, and other symptoms, so I concluded to try S. S. S. knowing it to be highly spoken of. After using a number of bottles-do not remember now just how much-my blood was thoroughly purified and enriched and I was relieved of all eruptions and manifestations of impure blood. I believe S. S. S. to be an excellent blood medicine, and any one in need of such a medicine would do well to use it. They will find it a perfect cure as it proved to be in my case. MRS C. E. SHOEMAKER. Alliance, O., 516 E. Patterson St.

While external treatment relieves temporarily it does not reach the real cause of the disease, because it does not go into the blood. S. S. a perfect blood purifier, neutralizes these acids and humors, and by strengthening and toning up the Liver, Kidneys and Bowels, the natural channels of bodily waste, disposes of

them instead of allowing them to be forced to the surface through the skin. S. S. S. is PURELY VEGETABLE. the greatest of

all tonics for building up the entire system, increasing the appetite and helping the digestion S. S. S. cures all skin diseases promptly and permanently, leaving the skin soft and smooth. Only by keeping the blood pure can we hope to have a clear skin. Book on Skin Diseases and any medical advice you may wish free of charge.

WILL GO TO PANAMA WITH OF VIEW OF POSSE

> Fires Bullets Into His Own Body When About to Be Taken.

> TERRORIZED FOR DAYS A SECTION MILES IN EXTENT

Five Hundred Men Patrolled the Roads With Guns Loaded and Cocked.

LORAIN, O., Sept. 2 -- On the point of apture by a Sheriff's posse, Peter Pitts, the man who terrorized the countryside from Avon Beach to Lorain for three days, is dead by his own hand. He shot himself in the head today in full view of the band of armed farmers, who were pursuing him, and sank dead upon the

Terrorized the Countryside.

The three days in which he ran amuck through a territory of miles in extent, firing upon men and women, burning farmhouses and driving the population from their homes to places of safety in the city marked one of the strangest and most sensational epitodes in the history of the county, Friday night 500 men patrolled the highroads, waiting for Pitts, they guns cocked and loaded.

Climax Is Tragic. The climax came when word was received that Pitts, still armed and raving, had been seen at his grandfather's home at French creek. Thither a posse of 160 men galloped without sleep. At a turn of the road they saw Pitts in the distance and they formed, ready to fire. He turned, watched the squad a moment, drew his revolver, vanited a fence, and then, while the posse grimly watched, he shot himself four times and fell a corpse.

KILLS GIRL WITH STONE

Italian Aims Rock at Enemy and Hits Child. NEW YORK, Sept. 2.-Holding her

doll in her arms. Rosie Griffo, 14 years old, was instantly killed yesterday near her home in West Fifty-ninth street by a stone alleged to have been hurled by Charles Glietto, an Italian of 18 years. The boy escaped. Still clasping the doil, the body of the little girl was ta-ken to her home and detectives were searching for the boy all night.

Glietto is the leader of a band of young Italians who have given the police much annoyance. For a long time they have annoyed the keeper of a small store, who finally got a policeman to drive them off.

Giletto returned soon afterward and crept up near the store. Rosie Griffo, who was a favorite in the neighborhood, sat on the steps of the store sing-ing to her doll. Muscarello, the storekeeper, sat near her. Armed with a large stone, Giletto, it is said, crept stealthily along the opposite side of the

stealthily along the opposite side of the street and when Muscarello's head was turned, threw it with all his force.

The missle struck the little girl squarely in the temple and she fell to the sidewalk, dying instantly.

A crowd of several hundred quickly gathered and gave chase, but Giletto evaded them and is still at large.

Neighbors say Giletto was engaged to marry the dead child's sister.

GERMANY SAYS NO DANGER

Government Prepared to Resist Cholera Epidemic.

BERLIN, Sept. 2.-The Ministry of ing the public that there is no reason for anxiety on account of the appearance of cholera in German territory. The Government has long reckoned on the present situation. A circular dis-patch was sent by the Imperial Depart-ment of the Interior to the confederated States in January calling attention to the possibility of cholera and request-ing them not to be unprepared to deal with an infection.

"Resisting the spices," "has become official direction says, "has become much easier under the imperial epidemic law of June 30, 1900, giving the health law of June 3 Resisting the spread of cholera," the ers have been fully exercised in se-questering persons that have cholera or have been exposed to it or who have doubtful symptoms and in watching over persons and property employed in traffic on the rivers Welchsel, Brahs and Netze and on the Bromberg ca-

FINDS NO CHOLERA

Russia Claims Empire Is Free From the Disease.

ST. PETERSBURG. Sept. 2.—The Health department gave its assurance today that there is no cholera in the empire including the Vistula district. The Minsk district has just reported again that no cases of cholera have been discovered there. A special investigation is being conducted in the Warsten district. Warsaw district. The authorities are again tracing the course down the Vis-tula of the raft, on which two cases of cholera occurred in April last while descending the river from the govern-ment of Minsk to Culm, West Prussia

LOUBET GOES BAREFOOT

French President Believes It Aids the Nervous System.

Nervous System.

PARIS, Sept. 2.—President Loubet is taking the barefoot cure, that is, himself, wife and daughter go barefoot except for light sandals on all but ceremonicous occasions during this hot summer.

The sandals worn by the President and his family come from Africa, being the approved Arabian kind. The President advises sandal wearing in summer for these reasons. "The naked foot not only benefits that member, keeping it cool and allowing it to breathe, but benefits the whole physical system and the mental as well. Liberate the foot of the customary inclosures, socks and shoes, and your nerves will grow stronger; if you are excited or worried, it will wear off easier."
